Second sentence

! **Incorrect**

It should be:

"Stavebník, meno a priezvisko (názov): Maksym Surovtsev".

Explanation:

The second sentence is missing the last name "Surovtsev," which is present in the first sentence. For consistency and clarity, both the first and last names should be included to fully identify the individual. This ensures that the information is complete and matches the format of the first sentence.
